Hi Dr. Perna,

Thank you so much for getting back to me I greatly appreciate it.  
No worries at all, thank you for letting me know.

Jovana

Hi Jovana – thanks so much for your note. I very much appreciate your reaching out.  
This is a terrific assignment, and I wish I could help.  
Unfortunately I completed these analyses several computers ago. I no longer have access to this code.  
I regret that I can't be more helpful. Wishing you all the best as you continue forward with your program.  
Laura

**Subject:** Article Replication Code and Data

Hello Dr. Perna,

My name is Jovana Ramos and I'm a student in the Ph.D sociology program at UC Merced.

In my statistics course we are currently discussing quantitative data and code. For one of our assignments we were asked to search for articles of our interest and asked the authors for their code.

I found your article “The Relationship between Parental Involvement as Social Capital and College Enrollment: An Examination of Racial/Ethnic Group Differences” very interesting and was wondering if you would share the replication code and the data used to write this article.

I look forward to hearing from you.

Jovana
